Mission Statement: SouthLake Christian Academy exists for the sake of God's glory and mission; proclaiming the gospel and discipling the whole person in all aspects of God's reality.

Course Description: Yearbook allows students the opportunity to learn cooperative learning, computer graphics, design, photography, and editing while producing the school's 160-page yearbook through the use of edesign.

Course Goals and Objectives:

- Become proficient with an Internet-based yearbook design site www.hjedesign.com.
- Design, write, edit, and take/retrieve photos for specific spreads, completed to the teacher's satisfaction by the date assigned.
- Practice editing, photo cropping, copy-writing, and layout design.
- Express their creativity through the yearbook!

Required Text: None.

Evaluation:

Students will be evaluated solely based on their ability to complete their pages using the online yearbook site on the date assigned by the instructor. This may require additional work, re-editing, and corrections. If pages are not completed to the instructor's standards within the allotted class time for yearbook, grades will be affected. However, students are still expected to finish pages, utilizing their own study halls, working at home, or coming after school in order to do so.

Homework Policy – Homework and class work will make up 10% of the overall grade. Homework will be assigned and checked for completion. All students begin the semester with a 100% homework grade. For each assignment not completed, 3 points will be subtracted. For example, if three homework assignments are not completed, then the overall homework grade would be 91%. No credit will be given for late assignments.
